## PVE City Council

### A Vote for New City Leadership

#### ***Why Victoria is running for City Council:***

As the current City Treasurer of PVE, combined with a 30-year career in corporate banking, I have the experience to be an effective council member. Since being elected, I have been immersed in the financial issues facing our city and understand resident concerns. I have continually advocated for better long-term planning to ensure the City is financially stable into the future. I think new leadership is in order.
