MARCH 3RD**

# THE PROBLEMS

- All PVPUSD schools were built between 1929 and 1964 and are in need of major renovations.
- PVPUSD ranks at the bottom of per-student state funding and won't receive much of anything from the statewide measure.
- Statewide regulations for earthquake safety recently changed and our schools need to be brought up to code.
- The quality of our facilities has already fallen below that of neighboring districts, all of which are investing more in their schools than we are.
